

Océ Intra Logic® release R2.5

Multifunctional document software

Today's office environment is a tough place. Time is at a premium, cost pressures higher than ever and the volume of documents growing all the time. So there are sound economic reasons for maximising the efficiency of routine tasks such as printing and scanning and of more complex jobs such as device administration. Océ Intra Logic® is a web-based tool that puts office users and administrators in desktop control of the entire document workflow.

Server system requirements

- Intel Celeron®/Pentium® IV or better
- Minimal 256 MB RAM
- Minimal 20 GB harddisk
- CD-ROM drive
- Minimal resolution 800x600, 256 colours or better
- TCP/IP over Ethernet UTP (10-100 Mb/s with auto detection)

Operating system

- Microsoft Windows NT4®: member/stand-alone server, Service Pack 6a, Microsoft Internet Explorer® 4.01 Service Pack 2, Microsoft Internet Information Server® 4.0 (option pack), TCP/IP printing service
- Microsoft Windows 2000® server: member/stand-alone server, Service Pack 4, Microsoft Internet Explorer 5.5, Microsoft Internet Information Server® 5.0, TCP/IP printing service

Océ Intra Logic R2.5 System data

- Microsoft Windows 2003[®] server: member/stand-alone server, Microsoft Internet Explorer 5.5, Microsoft Internet Information Server[®] 5.0, TCP/IP printing service
- Based on HTML and ASP pages and Java scripts
- User administration: new user added automatically and/or via importing of Océ NCCS or CSV file or via LDAP

Network requirement

- Network: TCP/IP, IPv4
- Communication between client and server based on HTTP protocols
- Communication between server and printer based on SNMP protocols
- Re-routing and Escape printing based on LPR/LPD between server and printer
- Network utilisation is minimal; during each request only a few lines of text is transmitted
