High Capacity Output Stacker for Océ VarioPrint 5000

To derive maximum benefit from the speed of Océ cut sheet printing systems—up to 162 A4 sheets per minute—you need to make the right provisions for stacking and finishing your output.

The Océ VP 5000 STACKER is an add-on stacking module for Océ VarioPrint® 5000 cutsheet printing systems. As single or tandem High Capacity Stacker it stacks up to 10,000 pages of output, so prints have to be removed from the printer half as often as before. The extra capacity means greater speed and convenience in handling.

The prints are stacked on a trolley, making it easy to move the output to the inserter, perfect binder or other finishing equipment. While a full trolley is being unloaded, a second can be receiving a fresh stack of prints. Each trolley acts as a mobile storehouse, and you can increase this capacity with as many trolleys as you need.

Of course, the Océ VP 5000 STACKER gives you the same security for prints that you've come to expect from Océ printing systems: no sheet is ever lost or stacked in duplicate. Which makes the stacker the perfect partner for prints that need extra careful processing.

Océ VP 5000 STACKER

Functions

- Stacks up to 5,000 sheets of 75 g/m² (20 lbs) or 4,600 sheets of 80 g/m² (22 lbs)
- Takes paper with formats up to A3+.
- Prints are stacked on a trolley.
- Job separation through stack offsetting
- Up to two High Capacity Stackers can be connected in tandem to one printing system.

Compatibility

- Connects to printing systems
- Océ VarioPrint 5115
- Océ VarioPrint 5160

Connection of post-processing equipment

- Post-Processing Interface Type 1+ or UP³I
- Bypass mode for routing sheets to post-processing equipment.

Electrical

- | | Europe | USA |
|-------------|------------|------------|
| ■ Voltage | 230 V ±10% | 120 V ±10% |
| ■ Frequency | 50 Hz | 60 Hz |

Environmental

- Temperature 5°C – 35°C
- Rel. humidity 10% – 85%

Physical (incl. adapter to printing system)

- Height 47.2" (1,200 mm)
- Width 28.5" (725 mm)
- Length 42.9" (1,090 mm)

Weight

- Approx. 200 kg (440 lbs)

Options

- One or more trolleys with a stacking capacity of 5,000 sheets each (75 g/m²/20 lbs paper).
- Elevator (to easily feed stacked sheets into offline finishing devices)
