Enjoy productivity most

Océ VarioPrint 4000 Series

Efficient printing and copying in your production environment

Enjoy productivity in your corporate or commercial printroom.

Total productivity. The kind you get when your document system combines the highest reliability, throughput, ease-of-use, quality and applications. No matter the type of documents you're producing: hard copy, digital, mixed. No matter the media you're using: tabbed, mixed stock, color inserts, custom sizes. And no matter the finishing requirements: stapled, punched, folded, booklets. The best-in-class Océ VarioPrint 4000 Series makes it all happen at up to 120 ppm. With your choice of system configuration. And backed by time-proven Océ service and support. Now that's productivity you can enjoy most!

Reliability + Throughput + Ease-of-use +

The Océ VarioPrint 4000 Series brings powerful, versatile printing, copying and scanning to your busy printroom or printshop. The system rises above others in its segment by supporting total productivity:

Reliability that saves you money

Reliable vacuum feed and air-separation technology means jobs are produced at rated speed with no jams or other money-wasting delays. Océ Copy Press, with its short paper path and error-free paper feed, provide proven reliability. And routine maintenance is easy.

Throughput that allows you to do more

Change to produce documents at up to 120 ppm even when duplexing. Then improve throughput even more with extra paper input—up to 15,400 sheets in seven trays that accommodate all sizes and types of media. Output capacity matches input; and inline finishing adds professional flair. Driving throughput is the powerful Océ PRISMA[®]sync Controller. The system also supports long, unattended runs, with features like load while printing, tray switching and extremely easy next-job programming on the graphical user interface while the first job prints.

Quality =

Total Productivity

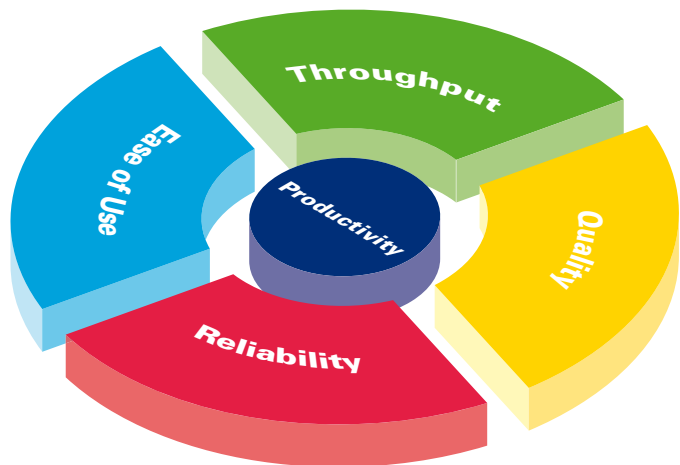

Ease-of-use that reduces costly errors

The system's dynamic, intuitive interface and ergonomic design mean operators will work more precisely and comfortably. So you suffer fewer costly missteps. Users simply press one button to print, copy or scan. Page programming in the printer driver makes it easy to create even complex documents. So users attain professional results without a lot of fuss.

Quality that keeps customers coming back

Océ Copy Press actually presses toner into your media for a cleaner, more professional result, at 1200 x 600 dpi and a maximum 141 lines per inch. Even fine halftones and dark areas appear crisp, precise and sure to please. Océ Image Logic is always in place to automatically ensure the best possible output. Accurate, active paper registration produces perfect book and check printing, duplexed manuals, complex image placement, etc. All quality enhancers that promote return business.

Totally productive printing, copying and scanning

Applications that stimulate business

Make sure customers choose you for all their jobs: printing, copying, scanning. Produce on a wide variety of media, including over-sized and custom media and provide stacking, stapling, booklet making, folding and punching. Add more with optional Océ PRISMA, sophisticated software that provides total workflow management: scheduling, makeready, production and delivery.

Options that make your money work harder

Financing your professional printing solution is just as important to your business as your choice in system configuration. Océ Finance can help you acquire state-of-the-art copying and printing solutions for less. Rental solutions that give you the latest equipment, such as the Océ VarioPrint 4000 Series, while freeing up your money for other core business activities. Now that's what we call financing you can enjoy!

Beyond the Ordinary

At Océ, sustainability and strategy are mutually dependent. We're working hard to minimize our ecological footprint. Sustainability is a big part of our overall success for our customers and business partners, but most of all for our well-being. Our track record since 1877 shows our responsibility as a corporate citizen. That's increasingly becoming visible in our products and services to society. Through innovation in products and processes, we will continue to take it to the next step.

Printing for Professionals

Océ helps the people who make our world. Companies everywhere use Océ technical documentation systems in manufacturing, architecture, engineering and construction. Each week, high speed Océ printing systems produce millions of transaction documents such as bank statements and utility bills. And in offices around the world, people use Océ professional document systems to keep the wheels of business and government turning. Océ is also at work in publishing on demand, newspaper production, document management outsourcing and wide format colour for spectacular display graphics. It all helps our professional customers go 'Beyond the Ordinary' in printing and document management.
