- Scan-to-email sends images to anyone, anywhere
- Undo/Redo buttons and keyboard shortcuts
- ICC and Closed-Loop Color copying
- Auto palette creation for 8-bit indexed scanning

Connects to your workflow

Copy to your printers, Scan directly into your software, Scan to your email, Scan to other network PCs, even share your scanner with other network users.
More scanning, less clicking

Nearly every feature or function of Nextimage software has been designed to make the scanner and user more productive – Less searching for the right settings, less adjustment to get the right quality, and less waiting to view results.

Get a better image

Nextimage software delivers a complete set of tools to ensure image quality for both archiving and printing. Never before has it been so easy to get professional results – with minimal adjustment.

Easy to setup and use

The Nextimage user interface has been designed for ease of use and customization. One big green button performs scanning, copying, email, and file saving. The settings panel lets you show only the settings you need – hide the ones you don't.
