

Plustek MobileOffice S400

Two Steps to managing your paper document

Designed with the reliability demanded by business users, and a price point attractive to home users, the **MobileOffice S400** scanner will convert paper documents, receipts, business cards and more to searchable PDF with the touch of a button.

MobileOffice S400 This second generation mobile scanner is powered by the USB bus and does not require external power. Scan to your PC, laptop or notebook, in your office, at the airport, at your customer site or on the road.

The **MobileOffice S400** also features advanced image processing that allows you to scan mixed sized document

with no adjustments. Images are automatically straightened, rotated and adjusted for exposure. The result is more accurate Optical Character Recognition (OCR) and Business Card Recognition (BCR) which fewer pages that need to be rescanned.

The included software productivity suite allows you to easily create and manage searchable PDFs. DocAction single touch scanning and industry standard TWAIN drivers ensure compatibility with thousands of scanning and imaging programs.
