

Plustek MobileOffice S420

Dockable High Speed Mobile Scanner Can Be Shared Between Two PCs

Fast Portable Scanning

Designed with the reliability demanded by business users, and a price point attractive to home users, the MobileOffice S420 scanner will convert paper documents, rigid embossed cards, expense reports, business cards and more to searchable PDF with the touch of a button at a FAST 12 page per minute scan speed!

This third generation mobile scanner is powered by the USB bus and does not require external power. Scan to your PC, laptop or netbook, in your office, at the airport, in your truck, at your customer site or on the road. The included office dock allows you to share the S420 with two PCs in the office.

Excellent Image Quality

The MobileOffice S420 also features advanced image processing that allows you to scan mixed sized documents with no adjustments. Images are automatically straightened, rotated and adjusted for exposure. The result is more accurate Optical Character Recognition (OCR) and fewer pages that need to be rescanned.

Includes TWAIN drivers and Software Suite

The included software productivity suite allows you to easily create and manage searchable PDFs. DocAction single touch scanning and industry standard TWAIN drivers ensure compatibility with thousands of scanning and imaging programs.

Plustek MobileOffice S420

Dockable High Speed Mobile Scanner Can Be Shared Between Two PCs

Features

- USB powered mobile scanner
- 12ppm Scan Speed
- TWAIN drivers
