Online folder for the Océ TCS500 and the Océ ColorWave 600

Ready for any job with the fully integrated online folder for the Océ TCS500 and the Océ ColorWave 600. Combining the productive Océ TCS500 print, copy and scan system or the Océ ColorWave 600 with an online folder, results in automatically folded wide format color prints and copies. Convenient user centered operation, enable folding directly from the driver and the scanner operation panel. The folding solution allows users to run their color jobs truly unattended, expanding the productivity of the system, especially if you have no time to waste.

The prints or copies from the Océ TCS500 and the Océ ColorWave 600 are automatically fed into the folder via a color compatible bridge and are folded according to a folding programme selected on the operator panel of the folder. From the 8 folding programmes, 4 programmes are pre programmed and 4 programmes are user defined. Proven folding technology based on sword and rollers, is then taking care of precise folding according to Din 824 A, B and C standards.

A reinforcement strip can be attached (optional) and then the folded plot is delivered on a belt. The off line folding allows to manually feed unfolded plots in the folder.

Thanks to the automatic media selection of the Océ wide format systems and an optional rotation unit, complete sets varying from A3 to A0 can be delivered folded without manual intervention. Long plots up to 6 meter long can be folded as well.

Online folder
Folding Methods
Rollers and sword technology
DIN 824 A, B, C
Fan fold
- Panel width can be adjusted from 180 mm to 210 mm in increments of 1 mm
- Binding margin from 0-20 mm in 1 mm increments

Cross fold
Z-style; 2 folds;
package length standard 297 mm
Accuracy
Exceeding DIN 824 specifications
Folding programmes
4 factory set
4 user programmable

Media length
420 - 6000 mm (fan fold only)

420- 2500 mm (fan fold and cross fold)

Media width
279 - 920 mm

Input
Automatic or manual

Output
Standard belt capacity for 50 DIN A0 prints

Options
- Additional stacking belt capacity for maximum 150 prints
- A2 rotating unit
- Reinforcement unit, tabs according DIN 111 mm, 134 mm or 268 mm

Length
1680 mm (including connector to TCS500)

Width
1670 mm (without additional stacking belt)

2000 mm (with additional stack belt)

Height
1110 mm

In crate
1840 × 1010 × 1660 mm

Electrical
230 V / 60 Hz / 6 A

Environment
0 - 30 C / 40 - 60 % RH / non condensing

Weight
280 kg; in crate 390 kg

Building a sustainable business has always been one of our core business principles. We do this by developing products and services that add value to the document processes of our customers, while minimizing environmental impact. And we conduct our business activities in a socially responsible manner aimed at preventing health, safety and environmental risks.
