

All-in-one colour printer with business-in-box concept for all-round graphics applications

An all-rounder colour printer, the Océ ColorWave 700 is designed for wider graphic arts applications and offers high quality, instant dry and water-resistant prints on uncoated, thick and custom media.

All-rounder colour printer for professionals

- Versatile ENERGY STAR® qualified printer for wider graphics arts applications with capacity of up to 6 media rolls
- Ideal for reprographics, sign and display print providers and in-house printing applications
- Enhanced custom media capabilities that support media thickness up to 0.8 mm with Océ MediaSense technology
- Extensive print capabilities ranging from CAD drawings on plain paper to banners on Tyvek; from decorative prints on self-adhesive film to applications on canvas
- Virtually no dust or ozone emission

The next generation of CrystalPoint technology

- New media path design
- 4 colour Océ TonerPearl system
- Good adhesion properties, instant dry and water-resistant prints even on uncoated media

Ideal for multi-user environments

- Swift running with Intel® Core™ i5 processor, dual hard drive and 8GB RAM
- Optional Adobe® PDF Print Engine 3 (APPE3) for accurate previews and fast processing speeds with end-to-end PDF workflows

Reduced need for servicing

- Océ PAINT technology repairs nozzle failures automatically, even on the fly, and extends the lifetime of the imaging device
- Fewer requirements for daily maintenance

Intuitive touch screen and easy accessibility

- Intuitive usability on Océ ClearConnect 10.6" touch screen with tablet-like gestures
- Preview, print, retrieve, create sets, zoom-in, zoom-out, select rolls and print profiles, see toner levels and connect to 3rd party software applications

Secure and connected

- Print from and scan to your cloud server, mobile phone, tablet or USB drive
- Optional built-in user authentication features

Colour scanning

- Optional built-in colour scanner
- Optimise scans with patented Océ Colour Image Logic® workflow
- High quality scans regardless of condition of original file
- Automatically clear background noise and capture details, even from mixed originals that include text, highlighted lines and photos

FOOTNOTES
 [1] Océ Print Assistant is a tool that determines the best print mode automatically based on file content
 [2] Measurements are based on printing CAD file at high-speed print profile
 [3] For 1 printer and 1 drawer
 [4] Depending on the file type
 [5] For non-rigid media only
 [6] Océ Express WebTools enables you to manage the device remotely on the web
 [7] Access Management is a user authentication tool that enables users to access the printer by entering user credentials on the ClearConnect touch screen or swiping cards if there is connected card reader. Authorization is managed by using Active Directory.
